

HIS LEGACY

To the Ends of the Earth

June - August 2018

Summer 2018 Edition

127 Legacy Foundation: Making a Difference

Summer 2018 Mission Trip!

The trip began with three days in Jakarta, working alongside our beloved friends at Getsemani Baptist Church. We provided a Vacation Bible School for all of the children and a Medical Clinic to follow. About 200 people came out to see Dr. Abraham and the other physicians to receive medical attention and free medications. We also hosted a wonderful parenting seminar for the parents of the church. The gifts we had prepared for all of the generous people who helped assist for all of our activities were greatly appreciated! After Jakarta, we flew to Kupang to visit our beloved orphanage, The House of Joy! And joy certainly filled the air upon our arrival! The children at the orphanage could not wait to join

the VBS program we assembled! We were expecting a total of 100 children to attend from the surrounding area, but ended up having 250!!! What a blast!

We did Medical clinics at a camp located 45 minutes from the orphanage. The people live in an old beaten down warehouse that was once used as a cow-hide manufacturing plant. The people were placed there by the government during the war with promises to be moved into more stable housing in the near future. Now, the families have been there for 18 years. All of the people seemed to be sick and came to see Dr. Abraham and the

other physicians. We gave out medication and reading glasses. After the medical clinics we did another VBS for the children who live there. We gave them snacks, milk, and beanie babies before leaving to do more VBS with the children back at the orphanage. One day we surprised the children at the orphanage with a big trip to the beach!! We had never seen so much joy exploding in one place! It was so much fun watching them play and have the time of their lives in the water! We all hated to leave, but all arrived safely at home after a long trek back to America. We couldn't have done it without the generous prayers and support from all of you. So with grateful hearts we say, "Thank You."

With Love,
Dr. Ben and the 127 Foundation
